

WAYPOINT SEALANTS PRODUCTS FOR CAST (MAN-MADE) STONE (Statues, Lawn Ornaments, Balustrades, Fountains, Window and Door Surrounds)

PROTECT, PRESERVE AND BEAUTIFY – INDUSTRY LEADING SEALANTS

CAST STONE

Cast stone: Cast stone is a concrete masonry form of artificial stone which simulates natural-cut stone. Cast stone can be made from white and/or grey cements, manufactured or natural sands, crushed stone or natural gravels, and may be colored with mineral coloring pigments. Cast stone can be seen in columns, cast stone veneers, balustrades, window and door surrounds, many forms of fountains, statues, lawn ornaments, etc. Since cast stone is made from concrete it should be sealed to preserve the appearance and prevent deterioration.

Sealant Considerations: Waypoint makes many sealers for protecting concrete and products made from concrete. The right sealer will depend on what is desired to be achieved. Most Waypoint sealants will provide protection from water while also providing special protection properties.

Treating Existing Deterioration/Flaking/Pitting/Salt-water erosion

WPS500-Concrete Sealer, Hardener, and Densifier, WPS500 is a water-based sealer that extends the life of concrete, decaying and deteriorating concrete and cast stone products; greatly reduces cracking, chipping, deterioration.

WPS600-Concrete Sealer, Hardener, and Densifier, WPS600 is a water-based sealer that **is the same** as WPS500 but also waterproofs. It extends the life of concrete, decaying and deteriorating concrete and cast stone products; greatly reduces cracking, chipping, deterioration.

WPC300-Densifier/Consolidator, WPC300 is a solvent based, deep penetrating high performance sealer that extends the life of concrete, decaying and deteriorating concrete and cast stone products; greatly reduces cracking, chipping, deterioration, repels water, consolidates and densifies, resists efflorescence, strong beading, slight darkening.

General Protection: From Weathering/Wear/Deterioration/flaking/UV Rays/salt-water erosion

WPS200-Steel Seal Pro, water based, film forming and penetrating; repels water, repels stains, prevents efflorescence, high dirt/leaf/grass resistance and pickup, matte finish, does not affect color.

WPN800-Porous Stone Plus, water base, penetrating, high performance, strong beading, strengthens substrates, may slightly darken, prevents efflorescence.

WPR500-Porous Stone Ultra, solvent based, penetrating, repels water, high performance, strong beading, will slightly darken/enhance.

WPS500, WPS600, WPC300, See above for General Protection.

Protection from Oil Stains

WPN900-Stain Tuff Sealer WB, water based, penetrating; repels water and oil (motor/cooking), nature stains caused by oils, strong beading, slight darkening.

WPR600-Stain Guard Plus, solvent based, penetrating, repels water, strong stain resistance including red wine, oils, strong beading, slight darkening.

WPW250-Paver Perfect HD, Solvent based, high performance acrylic surface film and penetrating sealer, darkens – enhances, gloss, wet look, repels water, oil, wine, etc.

WPW350-Low Sheen Wet-look, solvent based, acrylic surface film and penetrating sealer; repels water, oils and most stains, enhances/darkens colors giving a wet look.

Protection from discoloring algae/molds, black, green, other

WPC100-Surface Clear HD, solvent based, penetrating; repels water, prevents black algae only (the most common), up to seven-year effectiveness, slight darkening.

WPC200-Algae Repel HD, water based, surface film; repels water, prevents most forms/colors of algae, up to 2–3-year effectiveness.

You may also want to consider:

WPR800-Ultra Enhancer WB, water based, penetrating; repels water, strong beading, prevents efflorescence, enhancing wetlook, matte finish - slight to moderate darkening.

WPS400-Densifier, Hardener, Water Proofing, Water based, high performance, prevents efflorescence, significantly strengthens gunite, shotcrete or concrete pool shells, does not affect grout or plaster bonding.

For Cleaning

WPC500-Best Choice Cleaner WB, water based, concentrate, formulated for cleaning limestone, concrete, grout haze and efflorescence, removes most any stain or discoloration.

WPN100-Acid Neutralizer, *use after CL500 to neutralize the surface prior to sealing.*
